

Adding Value LLC

www.AddingValueLLC.com – Quality Building Products & Service

Update & Enhance your home with Adding Value

We're a Wholesaler working with Builders to enhance NEW Construction as well as with those staying put or looking to sell.

With a product mix that uniquely broad and appealing, yet purposeful & affordable, Adding Value works to enhance market value, processes and profitability by increasing the appeal, function and marketability of homes & properties with quality building products and service.

Your front door gives a vital first impression while a Realtor, Prospect or Friends and Family wait for you to answer the bell. Consider NEW **Door Hardware** throughout the house. (You'll enjoy it, too!)

Would you like or do you need to replace **Bath Accessories** like towel bars, robe hooks or toilet tissue holders? We've got those too.

Instantly update your bath with a rich, warm frame around plain, dated plate-glass mirrors. We have **Customized Mirror Frames** available to match Nickel, Black, Oil Rubbed Bronze, Chrome and Polished Brass finishes.

Do you have blinds that are damaged, sagging or discoloring? Adding Value offers both **Faux Wood & Real Wood Blinds** to beat any product sold from a retailer. Our BEST VALUE are our Faux Woods, with metal head-rails, solid wood tassels and UV resistant, rigid slats in 16-different designer colors & textures. You're sure to see the value. (Natural Woods Shades and Plantation Shutters also available)

Have you become increasingly concerned with heating/cooling loss in common areas such as around band joists, knee walls, knock outs or other overly exposed areas in your home? Adding Value also provides cost-effective, sensible solutions to homes whose efficiency is costing their owners money every month, lacking or not up to par.

Learn more about Adding Value's **Energy Efficient, Weatherization Up-grades** and how they can qualify you for rebates from your Electric Company or The Weatherization Assistance Program.

Whether you want to install yourself, or have our professional installers do the work for you, give us a call. You'll be glad you did.
